## WITHDRAWAL

Of French Marines from Greek Cities May Result from Explanations.

ATHENS, Oct. 25.—The Greek government has issued a communication to clear up misunderstandings due to exaggerated reports of King Constantine's interview with the French military attaché on Friday. The communication explains that the French government made no demands but merely submitted a memorandum and that the king never declared that he was prepared to break off relations with the Entente.

It is thought that as the result of a conversation between the king and the French minister this morning, during which explanations were made, the French marines may be withdrawn shortly from Athens and Piraeus.

Is Issued by General Trevino for Residents to Leave Chihuahua City.

SAN ANTONIO, Tex., Oct. 25.—General Jacinto Trevino, commandant of the Chihuahua garrison, has issued warning to residents to leave the city, according to a report that reached army headquarters from General George Bell at El Paso.

General Bell said that Mrs. Trevino was among the many refugees who had arrived at El Paso from Chihuahua.

Although the report did not tell of the progress of the Villa attack on Chihuahua persons who reached the border told army officers that camp fires of the attacking forces could plainly be seen from the city.

The report contained a detailed account of the crushing defeat received several days ago near Palomas by Carranza troops under General Ozuna at the hands of Villa's command.

## RENEWAL

Of Activity by the Punitive Expedition is Indicated by Heavy Shipments.

COLUMBUS, N. M., Oct. 26.—Heavy shipments of entrenching tools, picks, shovels, crow bars and sand bars, have arrived here. It is said they are for the use of the punitive expedition in Mexico. Officers take the shipments as an indication of a possible renewal of activity in the field. Officers say the tools would not be needed at field headquarters if the troops are to remain there. Recently the hands of the Fifth, Seventh and Thirteenth cavalry left at the border when these regiments went south were ordered to rejoin their commands.

Adobe houses are being built at field headquarters in Mexico. It is reported here, and army overcoats are being issued to the soldiers of the expeditionary force.

## BETTER LAWS FOR SCHOOLS

Are to Be Asked of the Legislature of the State at Its Next Session.

CHARLESTON, Oct. 26.—The West Virginia legislature of 1917 will be confronted by many problems concerning education. It will be asked to change some of the statutes regulating the free school system and to provide a greater permanent school fund.

The school department will ask the legislature to provide a means of equalizing school conditions and whether this can be done best by making the state the unit of taxation for school purposes is a question that will have to be worked out by the legislature.

Under the present system, Harrison county ranks first and Calhoun county fifty-fifth in the amount of money expended on the education of pupils in the free schools. The former county expends \$32.75 a year while the latter has only \$7.64 to spend. The taxation is uniform yet the physical conditions in the counties are such as to make Calhoun, as well as many other counties suffer in comparison.

By making the state the unit of taxation for school purposes, it is believed by those who have studied the situation that such counties as Calhoun would get educational advantages equal to those given in the richer counties, which include Harrison, Kanawha, Ohio and Wood.
